ANSI/BIFMA Product Compliance

Confirmation of Product Compliance

Team system are design engineered and manufactured to meet and exceed all ANSI/BIFMA requirements for safety performance and durability.

Samples had been tested and are compliant with the following test requirements;
(ANSI/BIFMA X 5.5 Desk/Table Product Tests, ANSI/BIFMA X5.9 Storage Product Tests

Including Desks Returns, Service Modules, Credenzas, Lateral Files, Tackboards

In addition, the materials are compliant with the following standards.

UL 1286 Standard for Safety of Office Furnishing when tested to UL 723 Surface Burning Characteristics of Building Materials (ASTM E 84 test method)

Flammable Spread Index (FSI) less than 195

Smoke Developed Index (SDI) less than 450

The panel system meets the requirements for **NFPA 101 Life Safety Code of Class A**

Greenguard Certification compliance; all adhesive material used on the panel system is based on water and the process of electrostatic painting defuses any VOCs that could be harmful for its users.

Tremain follows **ISO 9001** quality standards and **ISO 14001** environmental management standards.

Sincerely,

Mauricio Treviño

TREMAIN S.A. DE C.V. es una empresa 100% mexicana, establecida en la ciudad de Monterrey, N.L., la cual, a pesar de tener 22 años fundada, cuenta entre sus accionistas a personas con más de 50 años de experiencia en la fabricación de muebles para oficina.

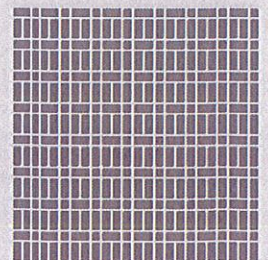

Nuestra compañía inició operaciones en el año 2002 con la finalidad de proveer partes y componentes para mobiliario de oficina al mercado estadounidense. A través de estos años, hemos logrado integrar una oferta de producto la cual nos ha dado la oportunidad de consolidarnos en dicho país y a su vez expandir nuestro mercado hacia Canadá, Mexico Centroamérica y el caribe.

La combinación de tecnología y equipo de vanguardia que conforma la integración vertical en nuestra manufactura y alianzas estratégicas derivadas de la apertura y globalización de mercados, nos han permitido crecer y posicionarnos rápidamente en los mercados mencionados.

Servicio, calidad, precio y tiempo de entrega han sido factores determinantes para conservar y aumentar nuestra posición en el mercado, pero el factor determinante para lograr la aceptación en el mismo han sido las pruebas y certificaciones por las que nuestros productos han pasado y logrado exitosamente.

La combinación de nuestra infraestructura y oferta de producto aunado a el esfuerzo en el área operativa como en la comercial, nos han dado la satisfacción de haber sido seleccionados como proveedores de empresas e instituciones reconocidas a nivel mundial.

Reiteramos nuestro compromiso de mejora continua en nuestro servicio y de conservar la integridad y ética profesional con nuestros empleados, proveedores, clientes y en general con todos aquellos que han confiado en nosotros y en nuestra empresa.

¿QUIEN ES TREMAIN?

Somos una empresa especializada en brindar asesoría para el diseño de espacios de trabajo equipándolo con mobiliario de alta calidad utilizando la más avanzada tecnología para la manufactura y diseño de nuestros productos, es por esto que nos ha dado la satisfacción de convertirnos en proveedores de dependencias gubernamentales, así como de empresas e instituciones privadas a nivel nacional e internacional.

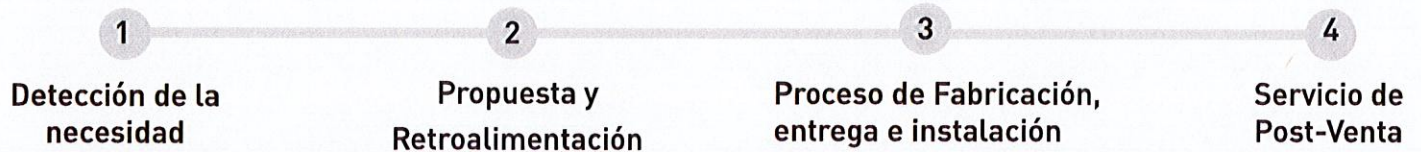

¿QUE TE OFRECEMOS?

Asesoría en el diseño de proyectos equipándolos con mobiliario de calidad de exportación, logrando lugares de trabajo con diseños totalmente personalizados adaptados a tus necesidades.

EXPERIENCIA

Contamos con más de 50 años de experiencia en la industria.

CURRICULUM EMPRESARIAL

¡ Bienvenidos a TREMAIN!

Tremain es una empresa 100% privada, establecida en la ciudad de Monterrey, N.L., México. Fundada en 2002, inició operaciones con el objetivo de proveer piezas y componentes de mobiliario para oficina al mercado estadounidense.

A lo largo de los años, hemos desarrollado con éxito una oferta de productos que nos ha permitido consolidar nuestra presencia en ese país y expandir nuestro mercado hacia Canadá, México, América Central y el Caribe. La combinación de tecnología de vanguardia y equipamiento en nuestro proceso de fabricación, junto con alianzas estratégicas resultantes de la apertura y la globalización del mercado, nos ha permitido crecer y establecernos rápidamente en los mercados mencionados.

El servicio, la calidad, el precio y la entrega puntual han sido factores determinantes para mantener y aumentar nuestra posición en el mercado. Sin embargo, el factor clave para ganar aceptación en el mercado ha sido el éxito en cumplir y superar los estándares ANSI/BIFMA.

Nuestra infraestructura, oferta de productos y el esfuerzo conjunto de nuestros equipos operativos y comerciales nos han llevado a ser seleccionados como proveedores de empresas e instituciones reconocidas a nivel mundial.

Reafirmamos nuestro compromiso con la mejora continua en nuestros servicios y en mantener la integridad y ética profesional con nuestros compañeros de trabajo, proveedores, clientes y todos aquellos que nos han honrado con su preferencia.

Gracias por su confianza.

CURRICULUM EMPRESARIAL

NOSOTROS

Somos una empresa especializada en fabricar mobiliario de oficina de alta calidad y en brindar asesoría para el diseño de espacios de trabajo con la más avanzada tecnología para la manufactura y diseño de nuestros productos.

MOBILIARIO

Nuestras líneas abarcan una amplia gama de opciones de mobiliario, diseñadas especialmente para cubrir tus necesidades.

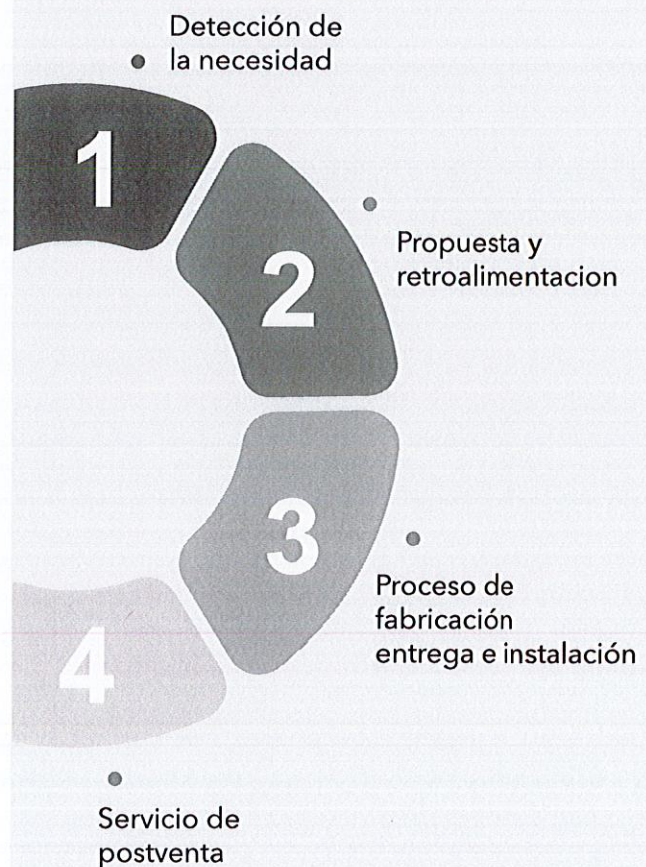

- Paneles y mamparas
- Benching
- Privados
- Mesas
- Archivo
- Recepciones

SOLUCIONES

Gracias a nuestra versatilidad en nuestras líneas de mobiliario, en Tremain podemos cubrir las siguientes soluciones:

- Home office
- Estaciones de trabajo
- Áreas colaborativas
- Salas de juntas
- Educativo y capacitación
- Call center
- Espacios sociales
- Mamparas piso a techo
- Paneles y mamparas

8-10 Electrical System

STU
DIO

BY DEKKO

Mastering Complexity

PANEL SYSTEM - INSPIRED SOLUTION

The 8 and 10 Wire Systems are intuitively designed for panel and desking system compatibility, so that receptacle location and mounting hardware remain unchanged for optimal installation. Offered in 3, 4, or 6 circuits, these systems overall, lower total cost and deliver the flexibility demands of today's office furniture industry.

A typical distribution assembly of an 8 or 10 wire system consists of a Distribution Harness, Jumper, and Receptacle(s) with optional Floor and Ceiling Power Entries. It serves to provide point of attachment and electrical connection for duplex receptacles, flexible panel connectors, and power entry components. Each component offers a variety of options to fit specific needs and workplace requirements. Choose from Shared Neutral 8 wire 4-2-2 or 10 wire 6-2-2 and Independent Neutral 8 wire 3-3-2 or 10 wire 4-4-2 (L-N-G) options.

Approved for UL 1286 or UL 183 applications and approved power infeed options for metropolitan areas (New York).

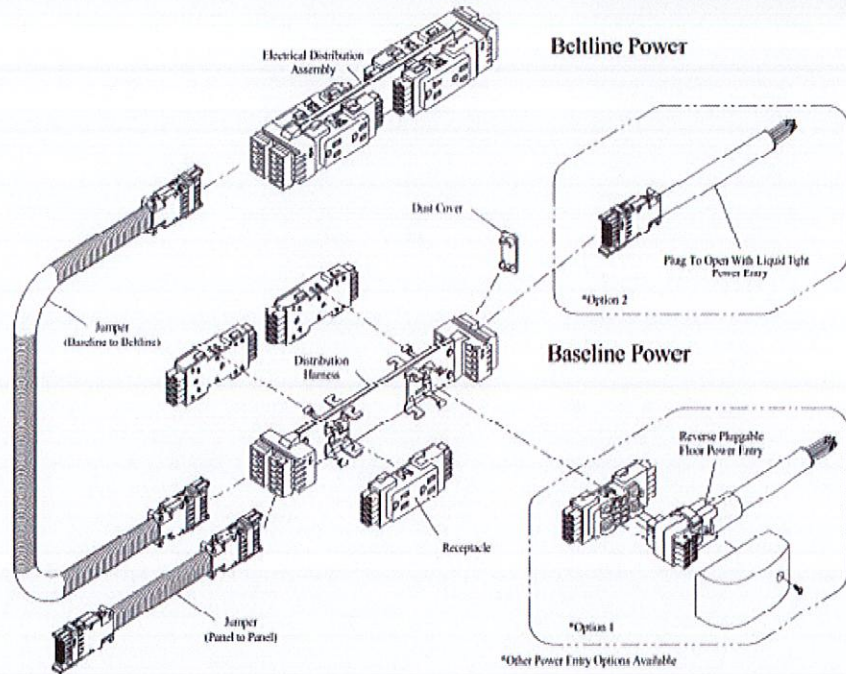

Handwritten signature or initials in blue ink.

FEATURES:

Applications

Desking Systems

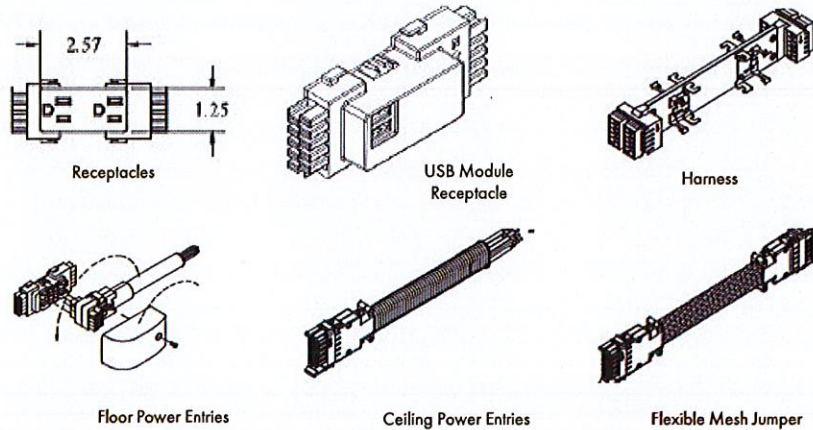

Specifications

- System Rating 20A/120V
- 15 or 20 Amp Duplex Receptacle Options
- 2.1A/10.5W USB Module Options
- Shared or Independent Neutral Wiring Systems
(All Shared Neutrals use 10 gauge wire, rated at 35 Amps - See Wire Schematics Sheet for Details)
- Shared: 8 Wire (4-2-2) or 10 Wire (6-2-2)
- Independent: 8 Wire (3-3-2) or 10 Wire (4-4-2)
- 8 Wire (4-2-2) Configuration: Up to 52 Receptacles Per Infeed

- 8 Wire (3-3-2) Configuration: Up to 39 Receptacles Per Infeed
- 10 Wire (6-2-2) Configuration: Up to 78 Receptacles Per Infeed
- Receptacle Decora Face Thicknesses Available: .990", 1.115" & 1.655" Top Spring Mount
(Receptacles work for both 8 and 10 Wire)
- USB Charging Module Decora Face Thickness Available: 1.115", 1.25" & 1.655" Top Spring Mount

- Wire Systems Components Include Distribution Harness, Jumper, Ceiling Power Entries, Floor Power Entries, Receptacles *(Each Sold Separately)*
- Jumper Conduits Options: Oval Extra-Flex, Liquid-Tight, and Extra Flex
- Standard Distribution Panel Lengths: 24" 30", 36", 42", 48", 54", 60" & 72"
- For Panel-to-Panel Connections Use 15" Flexible Mesh Jumper for All Panel Lengths
- Comply with UL 1286 and UL 183 Approved

Components - See System Specifications on following pages for additional details

Electrical Distribution Assembly- Mechanically attached to the panel base or table. It serves to provide point of attachment and electrical connection for duplex receptacles, flexible panel connectors, and power entry components.

Duplex Receptacles-Plugs into and is mechanically attached to the electrical distribution assembly. The receptacle is internally arranged to connect to the circuitry designated by the symbol on its face.

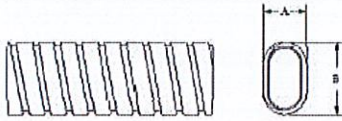

Jumper-Utilized to electrically connect electrical distribution assemblies.

Floor Power Entry- Used to connect the electrical distribution system to the building power network at a floor level junction box or similar device.

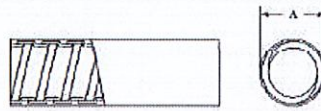

Ceiling Power Entry-Used to connect the electrical distribution system to the building power network at an above ceiling level junction box or similar device. The Ceiling Power Entry is installed by plugging directly into an electrical distribution assembly. The procedure is similar to jumper installation and the connection point is the same.

January 5, 2024

Dear Valued Customer:

We are thrilled to announce that Performance Furnishings has achieved BIFMA certification for our PL Laminate Series. This certification is particularly special, as our PL Laminate Series stands as the sole import laminate line outside of North America to attain this prestigious recognition.

As of today, all our case goods, pedestals, and hutches have been successfully registered and are proudly displayed on the BIFMA registry website. Additionally, our storage items and meeting tables are in the final stages of testing and will soon join the Registry.

BIFMA, the Business and Institutional Furniture Manufacturers Association, establishes rigorous industry standards for safety, durability, and sustainability. Our certification underlines our unwavering commitment to delivering high-quality products that not only meet but exceed these standards.

Key Benefits of Our BIFMA Certified Laminate:

- Assurance of safety and durability
- Compliance with industry benchmarks
- A mark of quality and reliability

We believe that this certification further solidifies our standing as a trusted provider of exceptional laminate solutions. Our dedicated team has worked tirelessly to reach this milestone, and we are excited to present a product that not only meets industry standards but surpasses them.

Look out for the distinctive "BIFMA Compliant" logo proudly displayed on our PL cartons.

This emblem symbolizes our commitment to delivering outstanding quality in every PL Laminate Series item.

For more information about our BIFMA certified laminate, please feel free to reach out to me at your convenience.

Thank you for your continued support. We eagerly anticipate the opportunity to provide you with the highest quality laminate products and look forward to sharing more exciting advancements shortly.

Dave Sponchia

Performance Furnishings North America

All products with the Greenguard logo are certified for a healthier, cleaner workplace. For more information, visit www.greenguard.com

Environmentally Friendly

All OfficeSource Laminate (PL) products are built from California's 2010 environmental guidelines.

MAS Certified Green: This logo is your assurance the product is certified for low VOC emissions.

Our Recycling Efforts

OfficeSource strongly supports recycling efforts. Our catalogs are printed on recycled paper containing a minimum of 10% PCW. We are committed to doing our part to sustain the environment. By printing our publications on recycled paper, two tons of wood, approximately 4,700 gallons of water, and nine billion BTU of energy were saved. Also, our catalogs are printed using vegetable-based inks. Please do your part by recycling our catalogs after their use.

8 WIRE MODULAR SOLUTION ELECTRI-PAK

**WIRE
POWER
LIKE A PRO**

ELECTRI-PAK SYSTEMS

ECA offers a complete line of modular electrical wiring systems which can be easily integrated into many panel and furniture designs. Available in 3 simplex (triplex) and 4 simplex (quad) single circuit and multi-circuit configurations, link multiple units together from one power infeed, in no particular order. A variety of mounting options are available, making the Modular Wiring Solution perfect for benching, workstations, and computer tables and retrofit applications.

Green Solutions

Our Green Solutions

Our company's foundation is built on our values, which distinguish us and guide our actions. We conduct our business in a socially responsible and ethical manner. We strive to protect and are committed to doing our part to sustain the environment. We are proud to feature products that are built from environmentally friendly materials that are certified for a healthier, cleaner workplace. Look for sustainable office furniture products identified with our environment logos.

OfficeSource is committed to a healthy and conscious lifestyle. From natural brown packaging, recycling to products that meet eco-friendly guidelines.

Look for our eco-friendly symbols!

All products with the Greenguard logo are certified for a healthier, cleaner workplace. For more information, visit www.greenguard.com

All Officesource Laminate (PL) products are built from California's 2010 environmental guidelines.

MAS Certified Green: This logo is your assurance the product is certified for low VOC emissions.

Our Recycling Efforts

OfficeSource strongly supports recycling efforts. Our catalogs are printed on recycled paper containing a minimum of 10% PCW. We are committed to doing our part to sustain the environment. By printing our publications on recycled paper, two tons of wood, approximately 4,700 gallons of water, and nine billion BTU of energy were saved. Also, our catalogs are printed using vegetable-based inks. Please do your part by recycling our catalogs after their use.

GREENGUARD Certification Mark

UL Marks

Our mission of working for a safer world since 1894 has led us to be the most influential presence in home safety. After over 100 years of being the leading voice, the UL portfolio of services is expanding to include other services, such as GREENGUARD Certification, and leveraging the power of those two brands in a single Mark. The following pages provide guidance on how to use the GREENGUARD Certification Mark to promote your certification on your product packaging and marketing materials.

GREENGUARD Certification Mark

Who can use the Mark?

The GREENGUARD Certification Mark may be used by customers who have entered into a License Agreement, Certification Program Agreement or General Services Agreement, have attained GREENGUARD Certification through UL, and whose products are currently certified. The Mark may not be used in an unclear or general manner that suggests or implies certain products are certified, when in fact they are not. Products are subject to reevaluation to maintain certified status and eligibility to use the Mark.

Companies that distribute certified products, or produce products that feature certified components, but have not signed a License Agreement, Certification Program Agreement or General Services Agreement may not use the Marks and may only use verbiage. For example, "We proudly use [Certified Manufacturer's name] GREENGUARD Certified textiles."

Please contact a UL marketing manager for more information.

Sample Mark

GREENGUARD Certification Mark

General Guidelines

The GREENGUARD Certification Mark can be proudly displayed on the product, product packaging and in promotional materials to communicate that a manufacturer's product(s) has achieved certification.

To be clear to the marketplace, the Mark may be used **ONLY** next to certified products in your promotional materials. The Mark may not be used in an unclear or general manner that suggests or implies certain product(s), process(es), or packaging are certified, when in fact they are not.

Encouraged forms of use include, but are not limited to:

1. Advertising
2. Tradeshow booth and materials
3. Marketing collateral
4. Company website
5. Educational pieces
6. Catalogs
7. Outside of product package
8. Product manual or guide
9. On the product

Be sure to only use the GREENGUARD Certification Mark with the correct UL standard number for your certified products. The GREENGUARD Certification standards are:

UL 2818 - GREENGUARD Certification Program For Chemical Emissions For Building Materials, Finishes And Furnishings

UL 2819 - GREENGUARD Certification Program for Chemical and Particle Emissions for Electronic Equipment

UL 2820 - GREENGUARD Certification Program for Chemical Emissions for Cleaners and Cleaning Maintenance Systems

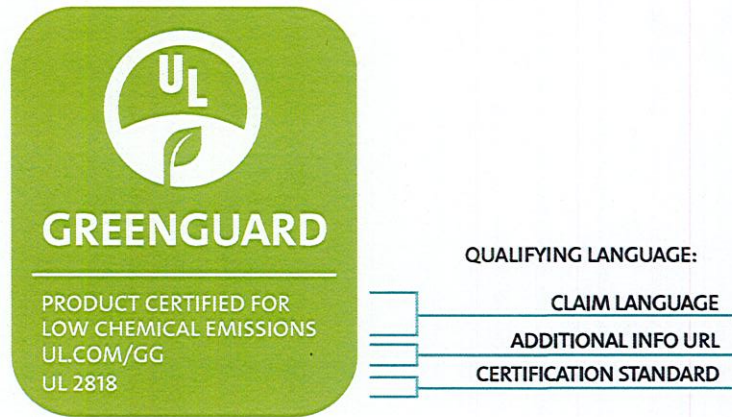

When promoting your GREENGUARD Certification, ensure these main concepts are followed:

- Be Specific and not use misleading words to describe certification.
- Be Accurate by only promoting products that have been certified.
- Be Consistent with language across marketing channels.

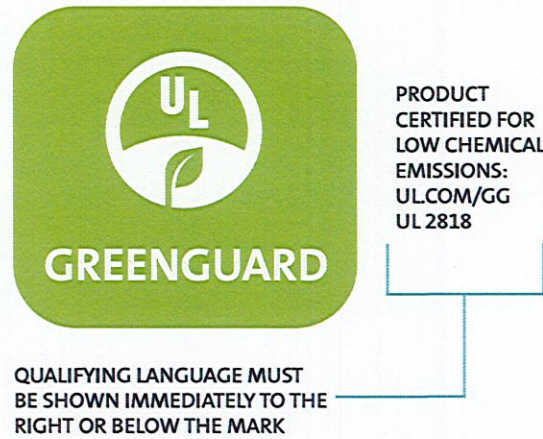

GREENGUARD Certification Mark

Clear Space and Minimum Size - Preferred

Minimum Clear Space Requirements

Minimum Size

When placing the GREENGUARD Certification Mark on the product, product packaging, and marketing materials, it is important to balance maximizing size with maintaining adequate clear space around the Mark.

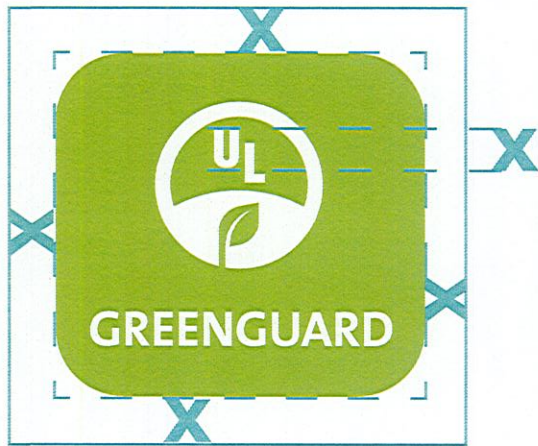

The minimum clear space requirements shown to the left should be observed in all situations. More clear space is preferred whenever possible, especially in situations when the GREENGUARD Certification Mark is placed near third-party marks.

To ensure visibility and legibility on print applications, the Mark should never be presented in a size smaller than 20.32 mm wide.

GREENGUARD Certification Mark

Clear Space and Minimum Size – Alternate

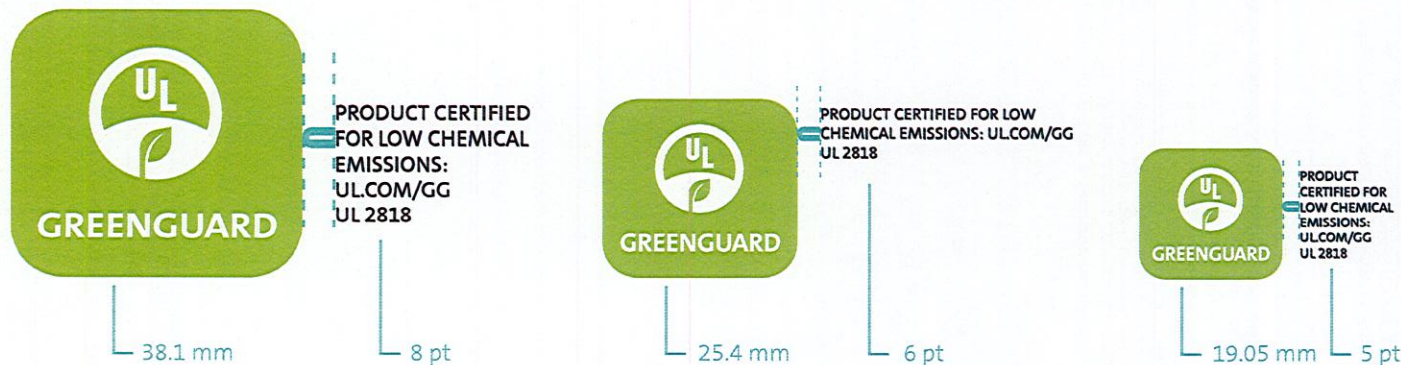

Minimum Clear Space Requirements

Minimum Mark and Font Sizes

Suggested Marks and Qualifying Language Sizes

An alternate version of the Mark is available for space-constrained areas. Customers may use the version of the Mark to the left, which features qualifying language that appears to the right of or below the Mark, not in the Mark itself.

When placing the alternate GREENGUARD Certification Mark on a product, product packaging, or marketing materials, it is required to place the claim language, additional info URL and certification standard immediately to the right of or below the Mark, and maintain adequate clear space around the Mark.

Qualifying language is added by the customer (standard numbers provided on pg 4).

Qualifying language must adhere to the following criteria:

- Qualifying language may only appear in TheSans font or Arial
- Qualifying language must appear to the right of the Mark, or just below the Mark
- The distance between the Mark and the qualifying language must be a distance equivalent to the height of the U
- Criteria language must be left justified in all capital letters
- The overall size of the text should be in proportion to the size of the Mark, and the standard should appear on its own line
- Text may appear in black or green on light backgrounds, or reverse (white) on dark backgrounds

GREENGUARD Certification Mark

Treatment Options

Green GREENGUARD Certification Mark

Black GREENGUARD Certification Mark

Green GREENGUARD Certification Mark reversed

Black GREENGUARD Certification Mark reversed

GREENGUARD Certification Marks appear on a wide variety of materials and substrates. The approved treatment options to the left provide the flexibility necessary to accommodate a variety of production requirements.

The Mark should only be used with a solid color behind it and not contain any patterns, gradients, or multiple colors within the outline of the Mark.

Always use the approved electronic artwork and criteria statements for each treatment option.

GREENGUARD Certification Mark

Approved Program Language

Qualifying Language (must be used with alternate version of the Mark. See page 6 for details)

STANDARD NUMBER

Approved program language for marketing materials:

- [Product name] has achieved GREENGUARD [GOLD] Certification
- [Company XYZ] has achieved GREENGUARD [GOLD] Certification for their [insert product names].
- Look for our GREENGUARD Certified products.

Criteria Statement

GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

GREENGUARD Certification may also be referenced in writing. Please use the applicable examples to the left to ensure consistent messaging in the marketplace.

Companies may want to provide further information about their certifications on the product or promotional materials. To the left you will find a criteria statement you may use on the product, packaging or other marketing materials.

These guidelines are not intended to provide or be interpreted as legal advice. Please consult with your own legal counsel on whether your environmental marketing claims comply with the FTC Green Guides. UL does not represent or warrant that the GREENGUARD certification Marks comply with the FTC Green Guides, and in no event shall UL or its affiliated entities be liable in connection therewith.

GREENGUARD Certification Mark

Unacceptable Usage

Do not add shadows or glows to the Mark elements

Do not alter the color of the Mark, only use approved artwork

Do not remove or alter elements within the UL brand Mark

Do not remove the border of the reverse Mark

Do not add a gradient to the Mark

Do not distort the Mark

Do not delete or reposition elements within the Mark

To the left are examples of unacceptable usage of the UL Mark. Only use approved artwork; it is unacceptable to alter the artwork in any way or method.

GREENGUARD Certification Mark

Unacceptable Usage

X

Do not place a border or box around the qualifying language

X

Do not allow the qualifying language to look disproportionately larger than the Mark, nor exceed the width or height of the Mark

X

Do not allow the Mark to look disproportionately larger than the qualifying language

HIDDEN GROMMET POWER CENTERS

FEATURES

- Spring-loaded button to open
- Lid sits flush when not in use
- Provides direct access to power and Ethernet
- (3) Power outlets, (2) USB chargers, RJ45
- 8' Power cord
- Overall dimensions: 4 3/8" D
- Cutout hole size: 4 1/8" D
- UL/CUL listed
- 15A, 125V

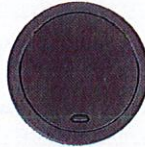

Hidden Power Grommet OSF2000

BK Black

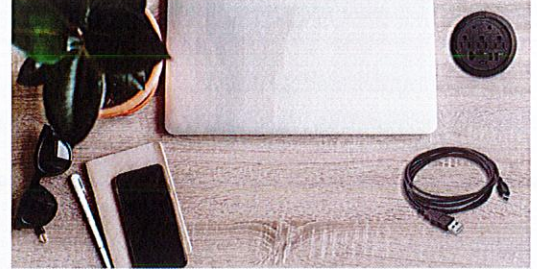

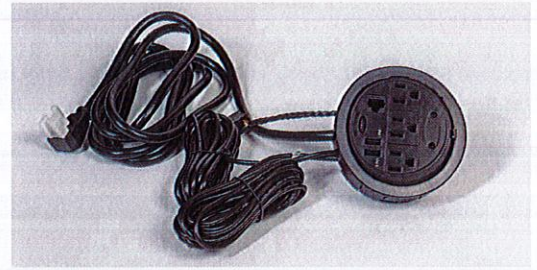

Open

Closed

Note: OSF2000 can be shipped by small package carrier.

GROMMET POWER CENTER

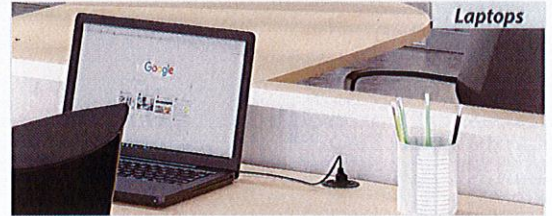

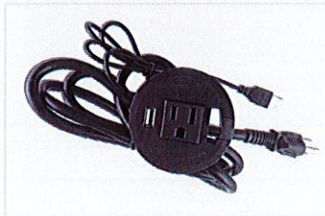

FEATURES

- Power outlet, (1) USB connection with optional data/charge
- Fits all OS Laminata grommets (2 3/8")
- Grommet hole: 2 3/8"
- 5' Power cord; 40" USB cable

Power Grommet OSF3000

BK Black

Note: OSF3000 can be shipped by small package carrier.

PULL OUT POWER GROMMET

FEATURES

- (4) Power outlets, (2) USB chargers
- Heavy-duty 8' power cord with surge suppressor w/indicator light
- Fits all OS Laminata grommets (2 3/8")
- Grommet hole: 2 3/8"
- UL/CUL listed
- 15A, 125V

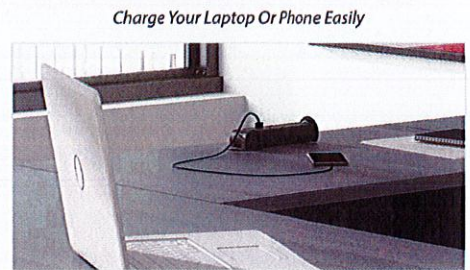

Pull-Out Power Grommet OSF1000

BK Black

Note: OSF1000 can be shipped by small package carrier.

Handwritten signature or initials.

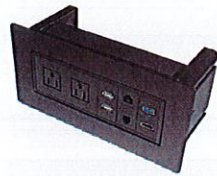

POWER INSERTS

FEATURES

- (2) Power outlets
- (2) USB 2.0 ports w/(1) USB 3.0 port
- (1) HDMI port
- (1) Data outlet & (1) phone outlet
- 8' Power cord included

Power Insert PLTBPOWER

Cutout: 9 $\frac{1}{2}$ "W x 4 $\frac{1}{2}$ "D
Overall: 10 $\frac{3}{8}$ "W x 4 $\frac{9}{16}$ "D

Open

Closed

Note: PLTBPOWER can be shipped by small package carrier.

DESK TOP POWER MODULES

FEATURES

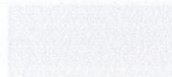

- Compact size clamps onto underside of work surface without the need for tools or hardware that fits most table tops
- (2) Power outlets
- (2) Dual USB Type A ports
- 72" Power cord included
- UL Listed
- Adaptive fast charger w/LED light indicators

Desk Mount Power Module OSF9550

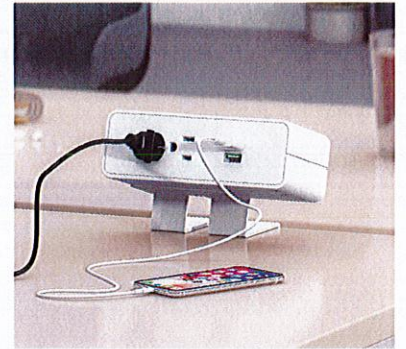

4 $\frac{1}{2}$ "W x 5 $\frac{5}{8}$ "D x 7"H

BK Black

WH White

Note: OSF9550 can be shipped by small package carrier.

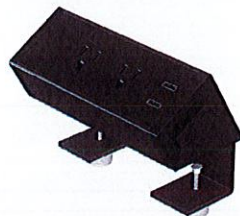

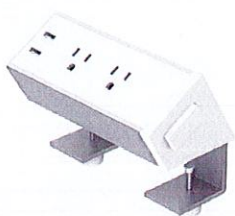

DESK TOP POWER MODULES

FEATURES

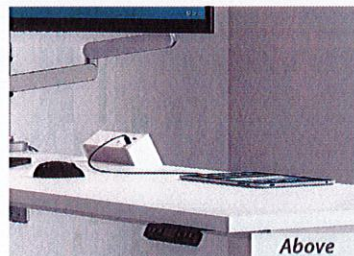

- Mounts above or below the work surface and includes (3) mounts with an above desk clamp, above desk grommet & below desk mount
- (2) Power outlets and (2) USB ports
- 4' Power cord included w/6'6" GST cord
- Daisy chainable

Desk Mount Power Module OSF9500

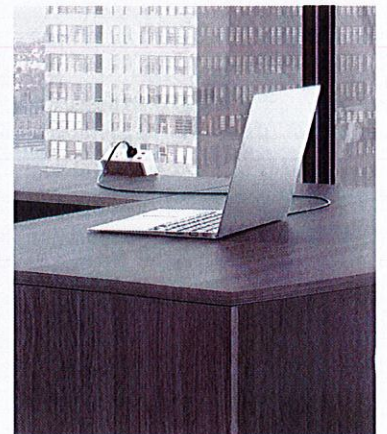

6 $\frac{1}{2}$ "W x 3 $\frac{5}{8}$ "D x 2 $\frac{5}{8}$ "H

NEW! UNDER SURFACE POWER MODULE

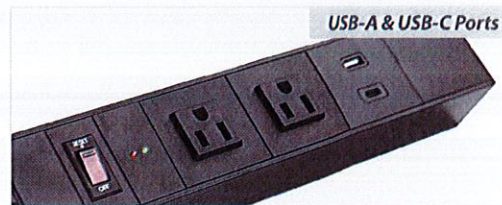

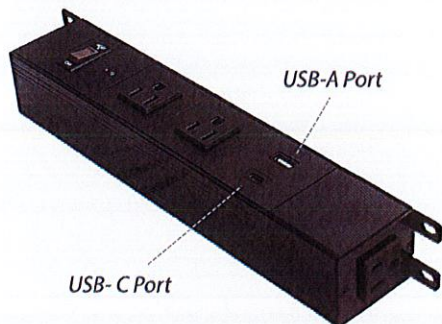

FEATURES

- (3) Electrical outlets with two on top and one on the side
- (1) USB-A & (1) USB-C; Daisy chainable
- PCBA surge protection with indicator light and overloaded protection switch
- 118" Power cord included
- 59" USB cable included

NEW! Under Surface Mount OSF5100

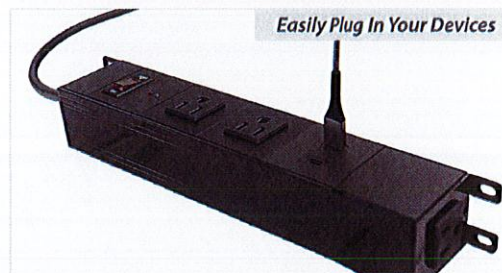

BK Black

USB-A & USB-C Ports

Able To Be Mounted Below

Easily Plug In Your Devices

Note: OSF5100BK can be shipped by small package carrier.

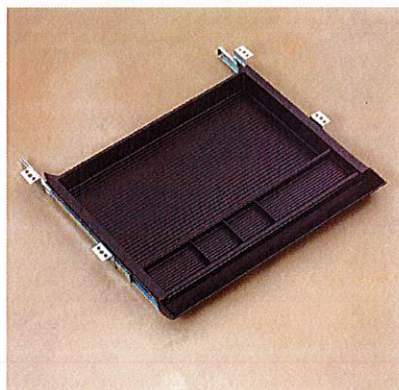

CENTER DRAWER

Black Center Drawer CDR1

21¼"W x 16¼"D x 2"H

BK Black

FEATURES

- Ball-bearing suspension
- Built-in pencil tray
- Very low profile design, yet handy and functional
- Optional drawer kit for many different work surfaces.
- Keep your accessories organized well and at an arm's length away
- Attaches to most work surfaces easily; assembly required

Note: Center drawer is not compatible with Unite Leg Bases, Height Adjustable Leg Bases & Beveled Leg Bases.

Note: CDR1 can be shipped by small package carrier.

KEYBOARD SYSTEMS - FOR STANDUP DESKS

Keyboard System w/Nano Arm OSF6500

Keyboard Tray: 28"W x 6¾"D

Mouse Tray: 7½"W x 8½"D

BK Black

Pairs well with our Variant & Standing Height Desks

Handwritten signature/initials

MODULAR ELECTRIC SYSTEMS

How To Order:

1. Determine the configurations that need powered and electrical load requirements.
2. Choose **Base Feed**.**
3. Establish placement of **Power Blocks**.
4. Identify **Receptacles** per power block.
5. To figure harness length, take the center of the item, where the power blocks are to be placed, plus the length of any items the harness needs to pass under. Subtract 7" and use the next larger size harness, unless measurement is exactly the size of a harness.

For Example:

Sample #1- The power blocks are centered in the 42" returns, so half the return size is 21" for each return (21" + 21") plus 30" depth of the peninsula, minus 7".
 $(21" + 21" + 30" - 7" = 65"$ harness length)
 6. Determine needed accessories

ADDITIONAL PRODUCTS

BASE FEED

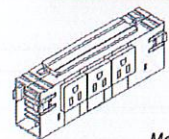

Note: 8 Wire, 4 Circuit System. Must be hardwired by a Licensed Electrician.

HARNESS

POWER BLOCK 84A/78MB*

84S1BL150, 84S2BL150, 84S4BL150

Power Block Does Not Include The Receptacles Pictured.

Block Is Two Sided. Mounting Bracket Included.

CHANNEL & DATA JACK

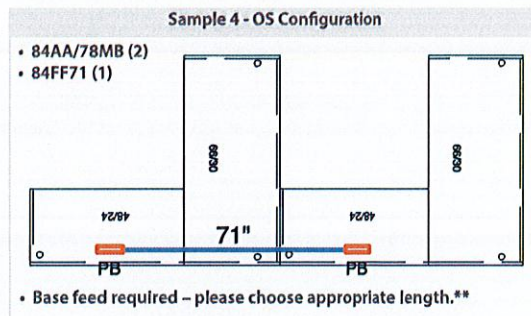

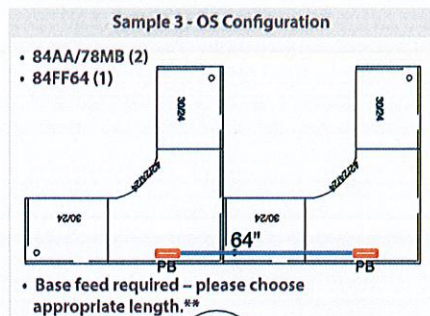

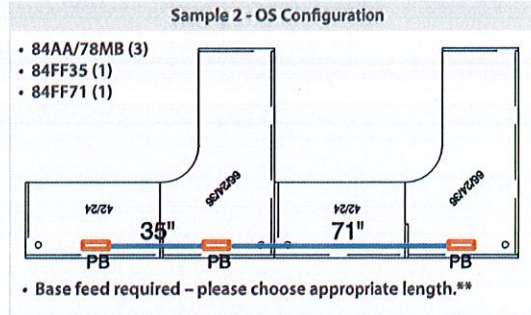

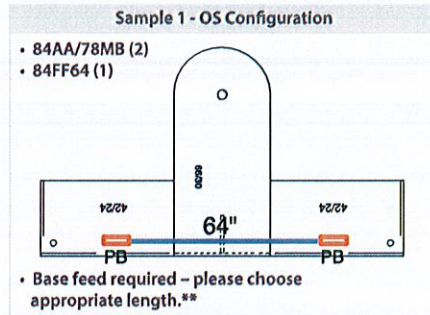

Metal J Channel
PLTPC18

- QS84FF83 Harness - 83"
- QS84FF89 Harness - 89"
- QS84FF95 Harness - 95"

Metal J Channel

For mounting power and data to the underside of a table or to a modesty panel. They are modular and versatile and provide power, data and wire management in a single package. J-Channels can be outfitted with our Electri-Pak wiring systems including our 8 wire, 3 circuit or 8 wire, and 4 circuit systems. Configurations are available in a variety of lengths and can accommodate a wide range of power receptacles in both single circuit and multi-circuit configurations.

A separate channel is provided for housing the telecom plate and keeps the data wires separated from the power cables. Interconnecting cables and power in-feeds are available in a variety of lengths. Power feeds, interconnecting cables and telecom plates are purchased separately.

QS = QUICKSHIP

Note: This collection can be shipped by small package carrier. UPS

To whom it may concern,

This letter is to verify that Office Gallery, LLC has been an authorized dealer of fluidconcepts for the past year and as such is authorized to represent, sell, service and perform warranty work for all fluidconcepts product lines.

We sincerely look forward to being of service to you through Office Gallery, LLC.

Sincerely,

A handwritten signature in black ink, appearing to read 'SS', with a long horizontal flourish extending to the right.

Scott Sheppard
Vice President, Sales

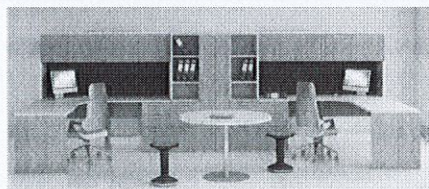

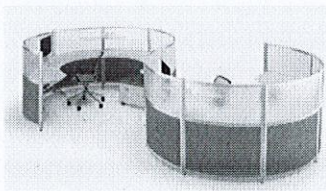

Phone: 905.672.5258
Email: ssheppard@fluidgroup.com

Fluidconcepts is an innovative designer, marketer and manufacturer of contemporary office furnishings. Product lines range from managerial, executive and boardroom casegoods to desking and benching systems, but also includes custom reception stations, portable "Office-in-a-box", height-adjustable tables and protective screens.

Since 2001, fluidconcepts has been providing unique, design-driven, contemporary furnishings for the workplace. Our products offer creative solutions while still addressing today's real workplace issues, such as technology accommodation and integration, installation simplicity, modular expansion and reconfiguration and inventory management.

From the materials used, through manufacturing processes, we consistently surpass environmental and sustainability standards in the United States and Canada. Our products are SCS Air Quality Certified, CGSB Tested, and ANSI-BIFMA Tested. The materials and components we use in manufacturing have a high degree of recyclable content and are post-consumer recyclable. We are a proudly ISO9001:2015 Certified design and manufacturing facility.

Fluidconcepts has more than 5,000 installations throughout the United States, Canada and overseas that range from small to medium-sized businesses to major corporations, government and educational institutions. End customers include: MGM Studios, Warner Bros Studios, Relativity Media, H&R Block, HSBC Banking Branches, UCLA, Motley Fool, Stantec Engineering, Anschutz Entertainment Group (Los Angeles), the University of Toronto, various V.A. Medical Centers, many U.S. Air Force Bases and Federal Government agencies.

January 5, 2024

Environmental & Sustainable Information – Materials

Meeting and exceeding environmental standards is core to our vision as exhibited in our use of materials, manufacturing processes, design and engineering process. We use only premium materials for our products and processes and strive to achieve the highest quality possible.

Materials

Recycled Material

Our products contain a high level of recycled material content, including: steel, which averages between 60-70% recycled content, particleboard (between 70-100% recycled content), and fabric upholsteries (between 48-100% recycled content).

Metal

All metal painting operations utilize powder-coat processes rather than solvent-based paints, thereby eliminating the risk of indoor air quality contamination from the off-gassing of finishing materials, while greatly reducing contaminant emissions to the atmosphere. A further benefit is the elimination of hazardous waste normally associated with solvent-based finishing processes.

Fabrics

Natural Fibres - fluidconcepts standard fabrics currently are made from polyester and recycled polyester based. We also encourage using C.O.M. fabrics including fabrics which are fabricated from Natural Sources.

Recycled Materials – Our standard fabrics can be 100% recycled for use in other textiles.

We use water-based and hot-melt adhesives in the high-volume processes to reduce VOC emissions in our manufacturing facilities and in clients' workplace environments.

Waste Scraps are reused as sales samples and if unusable then sent discarded. (Very little is discarded as we buy fabric rolls and have designed fabric panels to use maximum yield fabric) Current fabric offering is not biodegradable however; many are available through our C.O.M. program for client selection.

Manufactured to waste – Every panel is designed to maximize yield and reduce scrap.

Plastic Laminates

Fluidconcepts uses laminates from a number of world class suppliers (i.e. Nevamar, Wilson Art, Pionite).

All manufacturers exceed the requirements for emissions for their laminates.

We use water-based and hot-melt adhesives in the high-volume processes to reduce VOC emissions in our manufacturing facilities and in clients' workplace environments.

PVC edging –

PVC edging is lead free.

Recycled waste – All excess PVC is reused or ground up to be recycled

Powder Coated Worksurfaces –

Our fiberboard panels for worksurfaces and furniture fronts, cases that feature soft, rounded edges are powder-coated MDF. The benefits are elimination of volatile organic compounds (VOCs), the virtual elimination of formaldehyde emissions and a mar-resistant seamless finish.

Particle Board –

A large majority of particle board is recycled as the board is primarily spruce and fir, with some hemlock and pine, and comes in the form of sawdust and planer shavings.

Aluminum –

We use a high degree of Aluminum in our product which contains a small degree of recycled aluminum.

However, aluminum is 100% recyclable. All of our scrap and off-cuts are recycled.

Steel –

Steel, which averages between 60-70% recycled content, with the scrap being recycled

Plastics –

Recycled Content –

Approximately, about 2% of Fluidconcepts product is made of plastics. It is undetermined what % is recycled.

Paint –

All metal painting operations utilize powder-coat processes rather than solvent-based paints, thereby eliminating the risk of indoor air quality contamination from the off-gassing of finishing materials, while greatly reducing contaminant emissions to the atmosphere. A further benefit is the elimination of hazardous waste normally associated with solvent-based finishing processes.

Adhesives –

All adhesives used are water based.

Hardwood and Lumber Veneers –

Fluidconcepts does not currently use veneered materials

Modular Electrical Description

fluidconcepts utilizes a UL Listed modular 'plug and play' electrical system which consists of:

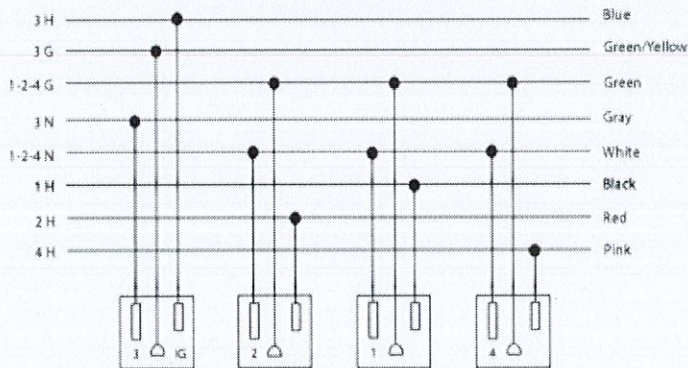

- 1) Power in-feed (Base feed or ceiling feed)
- 2) Power Modules and snap-in Simplexes
- 3) Interconnecting and Pass Through cables
- 4) Data Cut-out

Electri-Pak fully complies with National Electrical Code, UL and CSA requirements.

Handwritten initials/signature

1) Power In-Feeds

There are two types of power feeds:

Single Circuit Basefeed: A single circuit power feed has a cord and plug much the same as your computer at home. However, there is a slight difference. In commercial wiring there are two types of plugs, a 15 Amp 125 Volt plug and a 20 Amp 125 Volt plug. So, when at a facility, it is important to learn how their power is configured. A 15 Amp plug will fit into a 20 Amp wall outlet. However, a 20 Amp plug will not fit into a 15 Amp wall outlet.

Multi-Circuit Basefeed or Ceiling feed: Multi circuit power feeds require an electrician to wire.

Typically, fluidconcepts uses an 8 wire 4 circuit system consisting of 4 hots, 2 neutrals and 2 grounds. The multi-circuit power feed has wires on one end which an electrician uses to wire into the facilities power. The other end has a quick connect plug that mates with one of our power modules. The plug is polarized so that they will only enter the power module one way. As a result, continuity of the circuits is safely maintained. The two ends are joined together with grounded metal flex cable. UL Listed

2) Power Modules and snap-in Simplexes

Power modules are available in configurations which meet both single and multi-circuit needs. Simplexes come pre-installed in the modules and are available in both single sided (4 receptacles) and double sided (8 receptacles) configurations. These modules are enclosed in a double-sided aluminum Service Box or aluminum beam.

Interchangeability of simplexes permits any required circuit combination within the power module. Each simplex is clearly marked indicating the circuit in use.

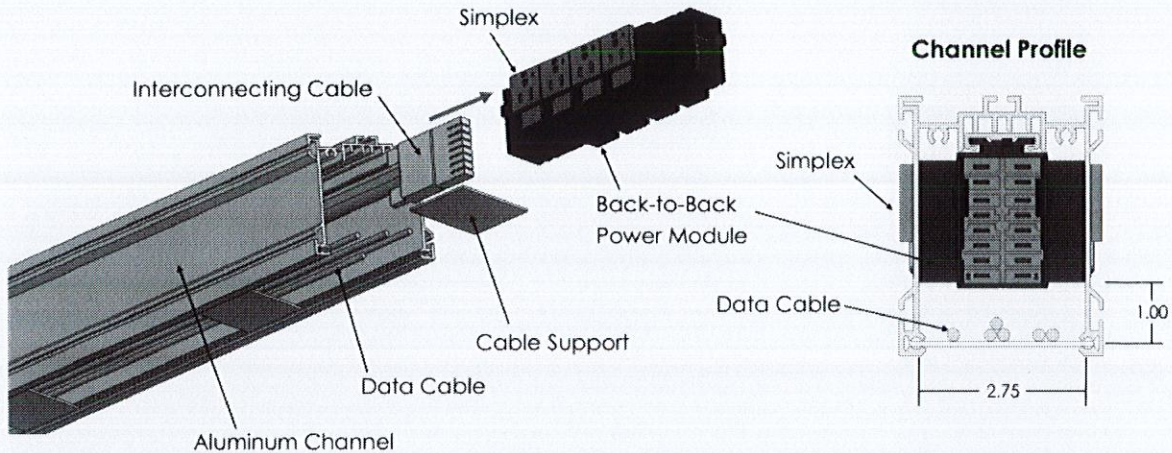

Continuity Simplex receptacles can be removed and replaced in the power module without disrupting power.

The Simplex Removal Tool ensures your safety. Only authorized personnel can remove the simplex receptacles by using the simplex removal tool.

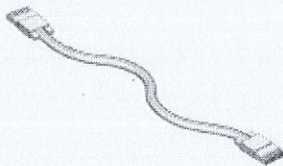

All dedicated circuits (IG) are shielded against EMI from other circuits.

fluidconcepts 96 Planchet Drive, Concord, Ontario L4K 2C7
 Tel: 905-672-5258 Fax: 866-789-6057 email: design@fluidgroup.com

www.fluidgroup.com

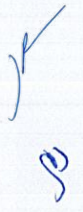

3) Interconnecting and Pass Through cables

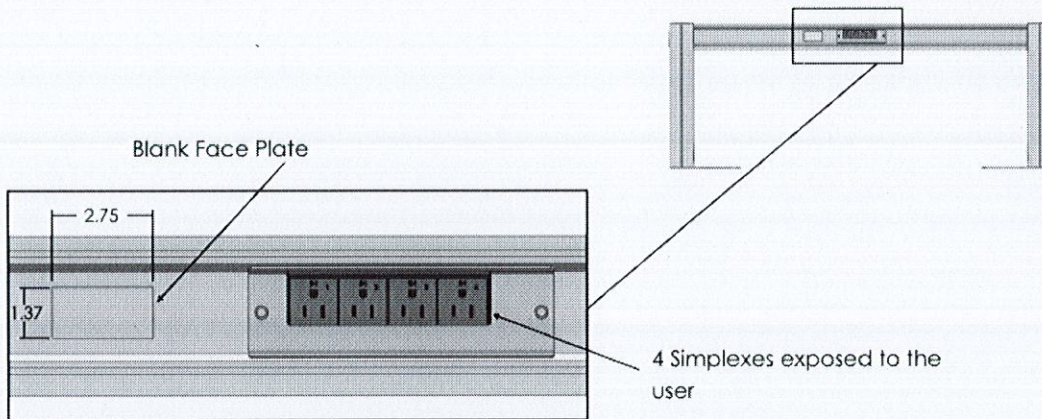

The components that connect one power module to the next are called Interconnecting cables. Since wires for all circuits are present, the interconnecting cables can interface with either single or multi-circuit systems. Pak System 84 connectors are black. This color matches that of the interior male connector in the power modules for the system. The metal-flex cables provide separation from and electro-magnetic shielding for the low voltage wiring that may run near or next to them. Specifically, telecommunication wiring like phone and data lines.

Pass Through cables simply act as extension cables. Configured as Female/Male, they connect from the Power Module to Interconnecting cable.

4) Data Cut-out

Please note: While the above image shows the Data Cut-out on fluidconcepts' Fence system, the information provided pertains to all products with the standard integrated electrical system described in this document.

Data Cut-outs are provided in a standard 2.75" x 1.375" size. Units are shipped with a blank face or cover plate. This plate is then replaced on site with many off the shelf options to suit the users needs.

Testing Standards

Our factory manufactures products and operates to standards including the following certifications:

- ISO 9000
- CGSB 44.227
- ANSI/BIFMA X5.5
- ANSI/BIFMA X5.9
- ANSI/BIFMA M7.1
- SCS Certified – Indoor Air Quality

Our procured components and materials such as electrical, laminates, fabrics meet all contract industry standards, including:

- ANSI/HPVA HP-1
- ANSI/NPA A208.1
- ANSI/NEMA LD3
- CSA O115-M1982
- CSA C22.2 no 203-M91
- ULC 5102-03
- UL723/ASTM E84

Nov 27, 2012

Warranty

States, Canada, and Mexico.

This warranty is extended only to the first end-user of new products purchased for its own use and not for resale; from fluidconcepts, its subsidiaries or its authorized dealers.

- Structures and Hardware (i.e. post, supports) are warranted for the life of the product.
- Laminate worksurfaces are warranted for the life of the product.
- Hard Coat finished worksurfaces, storage fronts & cases are warranted for 5 years*.
- Moving parts, which include glides, slides, casters, user-adjustable worksurface mechanisms, arms, and bases which are warranted for five years from the date of delivery.
- Task Lights, grommets and the Articulating Keyboard Tray, which are warranted for one year from the date of delivery;
- Lighting and electrical products sold, but not manufactured by fluidconcepts or its subsidiaries, are covered by the terms of the original manufacturer's warranty only, and are not covered by this warranty.

* this warranty covers normal wear and tear and does not cover chips, scratches or dents which occur during or after installation

Replacement Parts

Three year availability from the date of purchase from fluidconcepts, any of its subsidiaries or any of its authorized dealers.

Non-Standard Products

Non-Standard Products or product configurations are subject to warranty limitations.

Product not manufactured by fluidconcepts or its subsidiaries

All products sold, but not manufactured by fluidconcepts or its subsidiaries, are covered by the terms of the original manufacturer's warranty only, and are not covered by this warranty.

Products Not Covered

Consumable products such as but not limited to light bulbs and certain accessories, which are normally consumed in a period shorter than the applicable warranty period stated above, are not covered by this warranty.

Remedies

In the event of a defect in any product to which this warranty applies, then as the purchaser's sole remedy, fluidconcepts shall, at its sole option, replace or repair such product. All repair costs must be pre-approved before any work is to be performed.

Limitation of Liability

The remedies stated herein are the customer's sole and exclusive remedies, and fluidconcepts shall not be liable for any costs (including labor costs to repair the product, or transportation costs incurred to return the product to fluidconcepts or its authorized dealer), liabilities, lost profits, loss of goodwill, or any other general, special, incidental or consequential damages incurred in connection with the purchase or use of the products. Some states do not allow the exclusion of incidental or consequential damages or exclusions for limitation on the duration of implied warranties, so these limitations or exclusions may not apply to the purchaser.

To obtain performance under this warranty, the defective product must be returned to fluidconcepts or one of its authorized dealers with the proof of original purchase. Prior written authorization must be obtained before shipping the product directly to fluidconcepts. fluidconcepts will provide the materials to repair the product free of charge, including transportation costs to the purchaser or dealer, when the product is returned to an authorized dealer for repairs. The warranty is null and void if the product has been subject to abuse, misuse, negligence, accident, unauthorized modification, or if the customer fails to perform normal maintenance service on the product, which includes, but is not limited to, lubrication and cleaning, minor assembly and adjustment, and periodic operational checks. Normal wear and tear, natural variations occurring in wood, marble, and leather are not considered defect; fluidconcepts does not warrant the colourfastness or matching of the colors, grains, or textures of these natural materials or textiles. fluidconcepts does not provide any warranty for a purchaser's materials or other items incorporated or used in the products.
